

5090
Ser 1146/HP/EPA/1tr.
14 MAR 1988

Mr. Dwight Hoenig
Department of Health Services
State of California
Toxic Substances Control Division
North Coast Section
2151 Berkeley Way, Annex 7
Berkeley, CA 94704

Dear Mr. Hoenig:

As discussed in the letter sent to us from the U.S. Environmental Protection Agency (EPA) dated on November 2, 1987, we intend to implement removal actions at sites located at Naval Station, Treasure Island, Hunters Point Annex. Where such actions appear appropriate to reduce potential hazards to the public health or the environment due to releases of hazardous substances. Enclosures (1), (2), and (3) are the Action Memorandum, Engineering Evaluation/Cost Assessment, and the Work Plan respectively for the proposed removal action to mitigate external, above-ground asbestos containing material identified at various locations at Hunters Point Annex.

We request your review and comments on enclosures (1), (2), and (3) in order to assist us in conforming to the removal action requirements for federal facilities as defined by the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (as amended) and described in the guidance information included in the EPA letter of November 2, 1987.

The Navy intends to coordinate planned actions with your office prior to initiation. This documentation has also been submitted to other concerned regulatory agencies for their review. Please direct your comments to Commander, Western Division, Naval Facilities Engineering Command (Attn: Mr. Alex E. Dong, Code 1146, (415) 877-7502).

Sincerely,

P. W. DRENNON
CAPTAIN, CEC, USN
COMMANDER
